PRESS RELEASE

Pyramid Environmental Ranked in Triad Business Journal's Annual Book of Lists

Greensboro, North Carolina, January 2011: Pyramid Environmental & Engineering was ranked the 12th largest Environmental and Consulting Firm in the Triad by the Triad Business Journal. The previous year, Pyramid Environmental was ranked 13th. Pyramid hopes to continue its growth through the 2011 year as well as future years.

Pyramid Environmental Wins Two Year Contract with the North Carolina Department of Transportation

Greensboro, North Carolina, February, 2011: Pyramid Environmental & Engineering was selected by the North Carolina Department of Transportation to provide statewide geo-environmental and geophysical services to the Highway Design Branch for a two year term. This qualification-based selection demonstrates Pyramid Environmental's strong reputation for providing excellent and quality environmental work.

Pyramid Environmental lends helping hand to local Young Women's Christian Association chapter

Greensboro, North Carolina, August 2011: In 2008, the Young Women's Christian Association (YWCA) in Greensboro faced a financial crisis. The YWCA hoped numerous reductions plus the sale of the building would go towards paying off the nonprofit's debt and help to establish an endowment. . Pyramid Environmental was instrumental in the help of this potential sale by providing pro-bono work for the YWCA, completing a Phase I Environmental Assessment and an asbestos survey. The assessment and survey showed that any previous environmental issues had been resolved as well as the site being available for sale. With the aid of Pyramid Environmental, the YWCA building was put on the market and currently has a prospective buyer.
